

We are requesting that you leave Indiana's Telephone Privacy law alone. We were receiving up to two calls per evening before WE THE VOTERS passed the law preventing companies using this method to drum up business. Now we are only getting two per year if that many. It's wonderful!!! Our time does not have to be spent answering unnecessary phone calls! We will appreciate your taking this request into consideration. Leave this law as it stands. What's the sense of voters voting on a measure, and then someone coming along and changing it!! No changes, no ammendments!!
